Canada badly needs hundreds of thousands of new houses—and that means a lot of jobs. That's what the thousands of people who are jamming the Victory rolls up their sleeves—and the new schools, hospitals and universities called. Ahead of the homeless industry are the unfilled demands of four post-war, industrial and foreign. And that means employment!

The workers at Dominion Oilcloth and Linoleum Company see good prospects for good work employment. They have confidence in the company which kept them steadily employed even through the depression. They also know that they have protection while working, for virtue of sickness and accident insurance and that a pension await them when their working days are over.

Use Vaseline Hair Tonic every day, it's a real and simple way to make your hair look better. As an extra bit, massage it vigorously on your scalp to help circulation and rub a little on afterwards. These are little-known facts you must know about hair and look at last.

## Oil's gifts to Mankind

In 1859, a group of the world's most skilled men led by the north man, Dr. James H. Drake, at a little over fifty miles from the Gulf of Mexico, struck oil. And this, in the little wooden derrick that sheltered the pump, Drake well the petroleum industry was born.

Through eighty-five years of progress, new quantities of oil have been pushed from the earth's surface down to the bottom of the sea. In 1944, the world's production of oil was 1,000,000,000 barrels a day. And in the last year of "total war" oil gifts have been pushed to the limit. pay envelope?

Not all of your pay-envelope is Yours! We at home have a solemn obligation to our fighting forces—an obligation which can only be met by backing them up with every dollar we can lend to the war effort. Think, every time you receive your pay-envelope, of their sacrifice, and then decide how large a share of your dollars you can spare for Victory. And do it proudly and gratefully—for they risk life itself, while you are asked only to lend your money. Make it your solemn resolve, NOW, to buy one more than ever before.
